DETAILED ACTION

Election/Restrictions

DL 1. Claims 7-8,10-12, 14-~~15~~¹,18-20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species/invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 8-16-05.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-6,13,16-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Guzman.

Guzman discloses an aquatic exercise device (figure 6) comprising a plurality of fins 52 attached to a cuff strap 10, and having a stirrup strap 46 .

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 3-6, 9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Guzman in view of Jacobsen.

As to claim 3, collectively the leg jacket 40 and the straps 44-46 secure the device to the foot of a user of the Guzman device.

Jacobsen discloses the use of flexible straps to completely encircle the limb portion of a user. Given this teaching, it would have been obvious to one skilled in the art to modify the Guzman straps and jacket by minimizing the leg jacket and utilizing flexible straps which completely encircle the user's limb, and to utilize Velcro attachment means as taught by Guzman in column 4 lines 11-17.

As to claim 9, it would have been obvious to one skilled in the art to use the Jacobsen means to releasably connect the fins 52 to the cuff straps for changing the resistance to motion in the water.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
